Doctor Advice : ASO Titre	

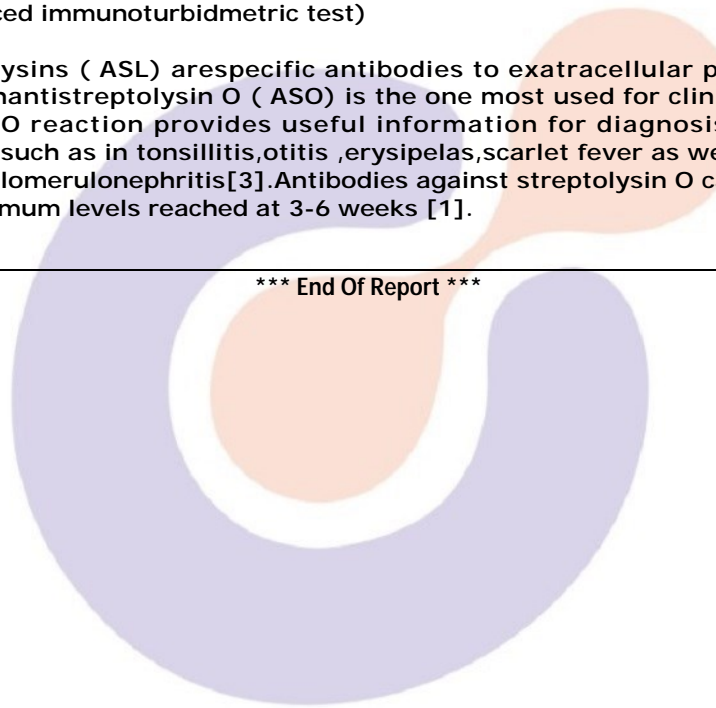

Test Name	Result	Unit	Bio. Ref. Range	Method
<b>ASO Titre</b>				
ANTI STREPTOLYSIN-O (ASO) TEST	93.90	IU/ml	< 200	Turbidimetry

( Method:particle enhanced immunoturbidmetric test)

**SUMMARY:** Antistreptolysins ( ASL) are specific antibodies to extracellular products of streptococcus pyogenes among which antistreptolysin O ( ASO) is the one most used for clinical laboratory evaluation [1,2]. Antistreptolysin O reaction provides useful information for diagnosis & monitoring of human streptococcal infections such as in tonsillitis, otitis, erysipelas, scarlet fever as well as associated diseases like rheumatic fever or glomerulonephritis [3]. Antibodies against streptolysin O can be detected 1 -3 weeks after infection with maximum levels reached at 3-6 weeks [1].
