### ULTRASOUND STUDY OF WHOLE ABDOMEN

- **Liver** is normal in size and shows homogenous echotexture of liver parenchyma. No intrahepatic biliary radicle dilatation is seen. No space occupying lesion is seen. Hepatic veins and IVC are seen normally.
- **Gall bladder** is partially distended and shows intraluminal echogenic calculus measuring approx. 16mm. Multiple echogenic foci giving comet tail artifacts are seen along gall bladder wall.
- **CBD** is slightly prominent measuring approx. 7.8mm in calibre at porta.
- **Portal vein** Portal vein is normal at porta.
- **Pancreas:** Head and body appear normal. Rest of the pancreas is obscured by bowel gases.
- **Spleen** is normal in size and shows homogenous echotexture of parenchyma. No space occupying lesion is seen.
- No ascites is seen.
- **Both kidneys** are normal in size and show raised bilateral renal parenchymal echogenicity. Few cortical cysts are seen in lower pole bilateral kidneys measuring approx. 24 x 20mm on right side and 10 x 7mm on left side. No hydronephrosis is seen. No calculus is seen. Cortico-medullary differentiation is well maintained. Parenchymal thickness is normal. No scarring is seen. Right kidney measures 95 x 37mm in size. Left kidney measures 89 x 48mm in size.
- **Urinary bladder** is normal in contour with anechoic lumen. No calculus or mass lesion is seen. UB walls are not thickened.
- **Prostate** is enlarged in size, measures 50 x 37 x 35mm with weight of 35gms and shows median lobe bulge into bladder base. A well defined small cystic lesion measuring approx. 12 x 7 x 6mm is seen near bladder base closely abutting prostate.

### IMPRESSION:

- **CHOLELITHIASIS.**
- **MULTIPLE ECHOGENIC FOCI GIVING COMET TAIL ARTIFACTS ALONG GALL BLADDER WALL --? FOCAL ADENOMYOMATOSIS/FOCAL CHOLESTEROSIS CHANGES.**
- **SLIGHTLY PROMINENT CBD --? AGE RELATED/?? CAUSE.**
- **BILATERAL RENAL RAISED PARENCHYMAL ECHOGENICITY WITH BILATERAL RENAL CORTICAL CYSTS.** Suggested: RFT correlation.
- **PROSTATOMEGALY WITH WELL DEFINED SMALL CYSTIC LESION NEAR BLADDER BASE CLOSELY ABUTTING PROSTATE --? UTRICLE CYST/?? NATURE.**

Adv: CECT abdomen.

Clinical correlation is necessary.
