## ULTRASOUND STUDY OF WHOLE ABDOMEN

- **Liver** is mildly enlarged in size (~154mm) and shows mild inhomogenous echotexture of liver parenchyma. No intrahepatic biliary radicle dilatation is seen. No space occupying lesion is seen. Hepatic veins and IVC are seen normally.
- **Gall bladder** is normal in size and shows few calculi in GB lumen measuring upto approx 7.6mm. No mass lesion is seen. GB walls are not thickened.
- **CBD** is normal at porta. No obstructive lesion is seen.
- **Portal vein** Portal vein is normal at porta.
- **Pancreas** is normal in size and shows homogenous echotexture of parenchyma. PD is not dilated. No parenchymal calcification is seen. No peripancreatic collection is seen.
- **Spleen** is normal in size and shows homogenous echotexture of parenchyma. No SOL is seen.
- **Few peri-portal lymphnodes are seen measuring upto approx 7.4 x 7.2mm.**
- No ascites is seen.
- **Both kidneys** are normal in size and position. No hydronephrosis is seen. **Bilateral renal parenchymal echogenicity is increased (Grade-I) with attenuated cortico-medullary differentiation. A simple cortical cyst is seen at lower pole of right kidney measuring approx 8.3 x 6.6mm.** No calculus is seen. No scarring is seen. Right kidney measures 96 x 50 mm in size. Left kidney measures 86 x 42 mm in size.
- **Ureters** Both ureters are not dilated. UVJ are seen normally.
- **Urinary bladder** is partially distended with anechoic lumen. No calculus or mass lesion is seen. UB walls are not thickened.
- Bilateral seminal vesicles are seen normally.
- **Prostate** is enlarged in size, measures 40 x 38 x 32 mm with weight of 26gms and shows homogenous echotexture of parenchyma. No mass lesion is seen.
- **Gross right pleural effusion is seen measuring approx 104 x 100 x 95mm with volume 520cc.**

### OPINION:

- **MILD HEPATOMEGALY WITH MILD INHOMOGENOUS ECHOTEXTURE OF LIVER PARENCHYMA.**
- **CHOLELITHIASIS.**
- **BILATERAL INCREASED RENAL PARENCHYMAL ECHOGENICITY (GRADE-I) WITH ATTENUATED CORTICO-MEDULLARY DIFFERENTIATION (ADV: RFT CORRELATION).**
- **SIMPLE RIGHT RENAL CORTICAL CYST.**
- **FEW PERI-PORTAL LYMPHNODES.**
- **GROSS RIGHT PLEURAL EFFUSION.**
- **PROSTATOMEGALY GRADE-I.**

Clinical correlation is necessary.
