

Patient Name	: Mr.AMAN	Visit No	: CHA250044354
Age/Gender	: 25 Y/M	Registration ON	: 12/Mar/2025 09: 11AM
Lab No	: 10141649	Sample Collected ON	: 12/Mar/2025 09: 11AM
Referred By	: Dr.AP MISHRA	Sample Received ON	:
Refer Lab/Hosp	: CHARAK NA	Report Generated ON	: 12/Mar/2025 12: 14PM

ULTRASOUND STUDY OF WHOLE ABDOMEN

- **Liver** is mildly enlarged in size (~ 161 mm) and shows increased echotexture of liver parenchyma. No intrahepatic biliary radicle dilatation is seen. No space occupying lesion is seen. Hepatic veins and IVC are seen normally.
- **Gall bladder** is normal in size and shows anechoic lumen. No calculus / mass lesion is seen. GB walls are not thickened.
- **CBD** is normal at porta. No obstructive lesion is seen.
- **Portal vein** Portal vein is normal at porta.
- **Pancreas** is normal in size and shows homogenous echotexture of parenchyma. PD is not dilated. No parenchymal calcification is seen. No peripancreatic collection is seen.
- **Spleen** is normal in size and shows homogenous echotexture of parenchyma. No SOL is seen.
- No retroperitoneal adenopathy is seen.
- No ascites is seen.
- **Both kidneys** are normal in size and position. Minimal hydronephrosis is seen. Bilateral renal calculi are seen (measures ~ 4.4mm, 2.5 mm in mid pole of right kidney & 3.5 mm in lower pole of left kidney). No mass lesion is seen. Cortico-medullary differentiation is well maintained. Parenchymal thickness is normal. No scarring is seen. Right kidney measures 91 x 47 mm in size. Left kidney measures 111 x 48 mm in size.
- **Ureters** Both ureters are minimally dilated. Calculus measures ~ 4.4 mm is seen in left proximal ureter. UVJ are seen normally.
- **Urinary bladder** is partially distended with anechoic lumen. No calculus or mass lesion is seen. UB walls are not thickened.
- Bilateral seminal vesicles are seen normally.
- **Prostrate** is normal in size, and shows homogenous echotexture of parenchyma. No mass lesion is seen.

OPINION:

- **Right renal calculi with minimal hydronephrosis -- ? possibility of right ureteric calculus.**
- **Left renal calculus with minimal hydronephrosis with left proximal ureteric calculus.**

Clinical correlation is necessary.
